About Me

Graduated as Software Engineer with 2 years of experience as a full stack web developer. I have been working as a freelancer for 1.5 years but tinkering since a kid. Aiming to use my knowledge at your organization that I have acquired from my coursework as well as self study. I have also worked as a UI/UX, graphic/web designer. I can help everywhere in the stack.

Furthermore, likes to read poetry and literature. Poetry have my heart.
